

RentDirect UAT Error / Failure Log

Product: RentDirect rental marketplace
Prepared date: 2026-07-28
Related UAT documents: tenant_uat.pdf and landlord_uat.pdf
Purpose: Single defect capture sheet for failed or blocked UAT steps

How To Use This Log

- Create one defect record for every failed or blocked UAT step.
- Use the exact UAT code from the tenant or landlord test document, for example TNT-UAT-017 or LL-UAT-012.
- Status values: Open, In Progress, Fixed, Ready for Retest, Retest Pass, Reopened, Deferred, Closed.
- Severity values: Critical, High, Medium, Low. Critical means the core journey cannot continue or money/identity data is at risk.
- Priority values: P1 immediate, P2 before sign-off, P3 next release, P4 backlog.

Severity Guide

- Critical: registration, OTP, login, verification, booking, payment, payout, or data privacy failure blocks end-to-end acceptance.
- High: major journey works only with manual workaround, wrong payment amount/status, missing required validation, or incorrect access control.
- Medium: confusing copy, non-critical missing data, layout issue, or secondary workflow failure.
- Low: cosmetic issue or minor content problem that does not affect task completion.

Defect Capture Records

UAT-ERR-001

Role: ☐ Tenant ☐ Landlord Related UAT Code: _____

Date Found: _____ Tester: _____ Environment: _____

Step / Action Performed: _____

Expected Result: _____

Actual Result: _____

Severity: ☐ Critical ☐ High ☐ Medium ☐ Low Priority: ☐ P1 ☐ P2 ☐ P3 ☐ P4
